

“Wade Equine Diamond Series”

“Wade Equine Signature Series”

Wade Equine Coaches is a New Zealand owned and founded company that has lead the way in Equine Transport for the past 20 years and shows no sign of slowing down on the innovation front anytime soon. Wade is well placed to identify upcoming equine transport trends and are always quick to stay ahead of the game. “Every truck we create is developed a little bit further than the last whilst always looking at new ways to innovate” says Wade Groups Marketing Manager, Alyssa. The “Wade Equine Diamond Series” is a great example of this philosophy in action.

Sophisticated elegance, describes the “Wade Equine Diamond Series.” Built on a custom ordered 440Hp Mercedes-Benz Actros with reupholstered leather trim is pure luxury. A nothing spared specification met with unsurpassed quality and design has turned dreams

into reality for the proud new owners.

As featured at the recent Equitana Show in Sydney, the Diamond Series can carry up to 6 horses in the well-appointed horse bay featuring the interchangeable stainless steel partitioning system. This allows for the largest of horses to travel in a bay and half or double bay if required. The all-important horse area is well ventilated for the heat, has cameras, large cover storage racking, a built in hand wash basin, an easy pull down rear roller blind and is durable and safe for the demands that horses create. The on-board water blaster makes cleaning out a breeze. All Wade Equine Coaches feature the newly developed Hydraulic designed lutan lift/flush mounted one touch tail gate lift system. The “Wade” quality ensures airtight and dust proof spaces on all openings and doors. The exterior storage is abundant with under living

storage, separate hay compartments and a huge tack locker to easily carry 6-9 saddles. The outdoor fridge and washing machine dryer ensures all amenities are at your fingertips.

Before entering the expansive double slide out living area you simply enter your personalised access code to the keyless automated side step entry system. With a background in interior design, Alyssa particularly enjoys assisting clients turn their vision into reality. “I enjoy working with different tastes and styles, some clients like to keep things minimalistic while others like a bit more detail”.

The “Wade Equine Diamond Series” is a 5 berth, additional to the 2 seats in the Mercedes cabin are the 3 certified seatbelt positions in the slide out seating. The Super King bed in the lutan above the cab, the queen bed above the bathroom and a touch button that operates the

dining table to convert to another double bed comfortably gives you the option to sleep up to 8 adults so you can invite your friends to stay over. The cleverly designed bathroom with a separate glass shower is a welcome hidden surprise.

Over time the Wade Group has developed a range of floor plans, making it easy for clients to match their requirements with a truck design. Along with modern design and creative touches their experience on the competition circuit gives “Wade” a genuine understanding of what works and what doesn’t. The “Wade Equine Signature Series” is our most popular Wade Equine design that offers compact driveability with stylish and spacious slide out living with all the comfort and unsurpassed quality that is synonymous with Wade Equine Coaches. Built on a Hino FE 1426 Air, 4x2, 14,000Kg GVM, 260Hp cab chassis, the cost effective “Wade Equine Signature Series” with Slide Out Living can carry 3 or 4 horses.

As Wade Group carries all the necessary Australian compliance and certification required to be second stage manufacturers, new Wade Equine Coaches can be easily registered as Motorhomes saving thousands of dollars in annual registration fees. “Wade”, build on ADR (Australian Design Rules) cab chassis, also take care of importation and shipping and invoice the client from their Australian company in Australian dollars to simplify the sales process.

“FOR UNSURPASSED QUALITY – DRIVE A WADE”.
